

## Slide

- Users must slide feet first, lying on their back, hands crossed on their chest or behind their head.
- Only one user at a time can enter the slide. It is forbidden to form a chain.
- Users must wait for the slide to be free or wait for the attendant's signal before starting to descend.
- It is forbidden to run, dive, stand, kneel, rotate or come to a stop on the slide.
- Please keep hands and arms inside the flume at all times while using the slide.
- When exiting the slide, please obey the attendant's signals and instructions and exit quickly.
- No unpleasant behaviour, harassment or threats towards others will be tolerated on or around the slide.
- No sharp or glass objects are allowed around the slide. Bathing suits with visible zippers, bows, rivets or metal decorations are not permitted. Users cannot wear any personal objects such as jewelry, watches or glass objects that could cause self-injury or injury to others or that could damage the equipment (including safety vests). Prescription glasses must be securely attached by a strap around the head.
- Everyone must use the slide safely in order to avoid injury to other users.
- The use of the slide is forbidden to anyone who is under the influence of alcohol or drugs.
- It is strongly recommended that you do not use the slide if you have health problems.
- **WARNING: For safety reasons, pregnant women and anyone with heart or back problems should not use the slide.**
- Management reserves the right to deny access to anyone at all times if it considers that his/her behavior presents a potential hazard to themselves and to others.
- The maximum operational load of the slide is of one person of 265 lbs (120 kg).
- Users are responsible for any injury that may result from the misuse of the slide or the failure to follow instructions.
